## Skills

---

- |  |  |
|--|--|
| • Java Technologies Java, Spring, Spring Boot, Restful Web Services, Spring REST, Spring Core, CI/CD, Angular. | • Frameworks Spring, Spring Boot and Hibernate   |
| • Databases PostgreSQL, Oracle Database, MySQL and DB2   | • Methodologies Agile, Waterfall, Scrum  |
| • Frameworks/API's JPA, Hibernate  | • Web Services SOAP, REST  |
| • Code Development Tools Eclipse, STS and IntelliJ   | • Development Tools Eclipse, SQL Developer, STS, IntelliJ IDE, Postman, Swagger  |
| • Version Controlling tools GitHub, BitBucket  | • ALM Tools Jira, Splunk, GitHub, Bamboo, Bitbucket, Putty, WinSCP, Control-M, CA Workload Automation, Jira, BMC Remedy ITSM, Confluence |
| • Operating Systems Windows  |  |
| • Design Patterns Singleton, Factory, Builder, Adopter, MVC and Strategy                                       |  |

---

## Work History

---

**Senior Software Development Engineer**, 12th May 2025 - till date  
**Horizontal Integration** - Bengaluru, India

Project Name: Quant

Client Name: CME Group

Brief description: Worked as a Java backend developer for at CME

Application

- Development of API's to generate Margins for F&O and IRS
- Worked on Scripts to generate the risk data for historical stress scenarios
- Automation of reports to generate daily and weekly margins for multiple firms under CME Group

**Senior Software Engineer**, 2nd September 2024 - 30th April 2025

**Mphasis Limited** - Bengaluru, India

Project Name: Offer-Order(O2) & Customer Account Technology(CAT)

Client Name: Charles Schwab

Brief description: Worked as a Java backend developer for a American market trading

Application

- Development of microservices built using spring boot.
- Enhancement of API's based on client's requirement.
- scripting mail alerts for any JAVA exceptions in production using Splunk.
- Creating dashboards to monitor the behavior of each application in Splunk.
- Loading scheduled batch jobs using Control-M and CAWA(CA workload automation)

**Senior Software Engineer**, 22nd November 2021 - 30th August 2024

**Brillio Technologies Pvt LTD** - Bengaluru, India

Project Name : TRI(Telemetries Reporting Interface)

Client Name : Mercedes - Benz USA

Brief description: Developed a commercial application from scratch which uses angular as frontend technology and Java as backend

- Development of backend API's using JAVA, Spring frameworks and modules
- Developed Spring Batch jobs to load the sales data to the database tables.
- Deployment of the application in different environments
- Creating Database tables and views in PostgreSQL
- Worked on query optimization to increase the API performance.
- Implementation of Pagination for the backend API's
- Working with the clients to get the requirements gathered and business logics get approved

Project Name : IMS

Client Name : Fiserv India PVT LTD

Brief description: Worked as a Java backend developer in payment gateway domain

- Development of APIs as 3rd party payment gateway
- Developing applications to load the data from primary data source to snowflake
- Worked on internal developer portal
- Worked on DB fixes using snowflake

- Created stored procedures
- Enabled cross site scripting (XSS) using spring security for few of our applications
- Worked on server-side activities using WinSCP and putty
- Deploying the applications in multiple environments
- Created CRON jobs in java to load the data into the DB at scheduled intervals
- Implementing Design patterns on the spring boot applications for better maintenance, reusability, and flexibility.

**Associate Software Engineer**, 15th July 2019 - 15th November 2021  
**Mphasis Limited** - Bengaluru, India

Project Name: Express O2

Client Name: Charles Schwab

Brief description: Worked as a Java backend developer for a finance client

- Development of microservices built using spring boot.
- Enhancement of API's based on client's requirement.
- scripting mail alerts for any JAVA exceptions in production using Splunk.
- Creating dashboards to monitor the behavior of each application in Splunk.
- Loading scheduled batch jobs using Control-M and CAWA(CA workload automation)

---

### Certifications

---

- Agile Certified Professional
- Google Cloud Certified Associate Cloud Engineer
- Github copilot for IntelliJ IDE

---

### Education

---

**Bachelor of Technology**: Electronics and Communications April 2019  
**Aditya College of Engineering Madanapalle, JNTUA** - Madanapalle, India

**Intermediate/ XII Std**: Maths, Physics & Chemistry - May 2015  
**Bharathi Junior College** - Madanapalle, India

**SSE** - April 2013  
**Gnanodaya English Medium High School** - Madanapalle, India
